OSHA Docket  
Docket No. H-122  
Room N-2625  
200 Constitution Avenue, NW  
Washington, DC 20210

To whom it may concern,

OSHA is crossing the line of reason with potential overregulation. Smokers certainly should have an area for smoking. Smokers are discriminated against. We all have freedom of choice. My father smoked for 66 years and didn't die of smoking. I respect other peoples' wishes.

In my home I will not be told what to do by the government.

I oppose the proposed OSHA regulation as it is currently written and feel the government already controls too much of our lives.

Sincerely yours,

*Marcella Ziemba*
